

## CT Series

FLOOR COATING SYSTEMS

# Brilliant CT-2AsAs (Solvent-Based)

- ① Prepared Concrete
- ② Acrylic Sealer
- ③ Acrylic Sealer

### System Description:

The Brilliant CT-2AsAs Solvent-Based is floor sealer system that consists of two layers of acrylic sealer. This system creates a durable, long-lasting finish that offers improved resistance to chemicals and wear.

### System Advantages:

- Resists chemicals, UV exposure, and abrasion
- Deep penetration
- High gloss/wet look
- Xylene-based formula offers quick drying and easy recoat
- Seals and protects the concrete extending its life
- Creates a clear, tough, and easy-to-clean sheen finish

### System Installation Overview:

1. Clean concrete to ensure it is free from any oil, grease, paint, or sealers (grind if necessary).
2. Apply a layer of Acrylic Sealer at 6-8 mils.
3. Apply a layer of Acrylic Sealer at 3-5 mils.
